

ELECTRONIC PALLET TRUCK WEIGHING SCALE

Model : PI-PT
Capacity: 500 to
5000 Kgs

'Providence Industries' Electronic Hydraulic Pallet Truck is an economical way for one person to **WEIGH & MOVE** heavy pallet loads without the use of a fork lift/stacker. The ergonomic design has been tested for providing years of reliable usage.

This pallet truck includes two articulating steering wheels & four front load wheels.

The reinforced formed steel forks provide twice the strength of standard single formed forks. Equipped with internally mounted steel adjustable push rods.

The spring loaded handle automatically returns to vertical position when not in use. The chrome plated hydraulic pump piston provides long seal life.

Three Lever Positions handle controls

Compact, Unique Sealed Dust Free Hydraulic System

Flameproof Enclosure

In Built Receipt Printer

DA 200 Series Printer

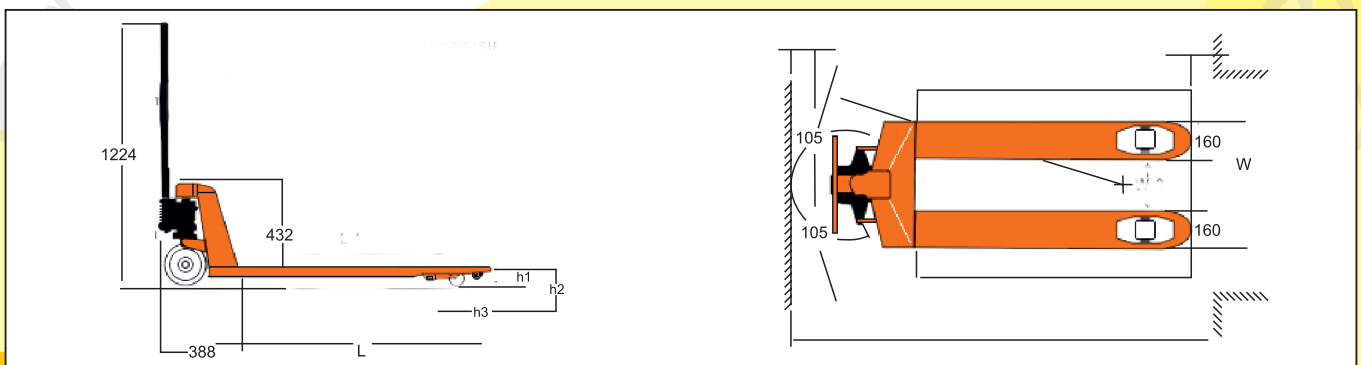

SS Fork Pallet

Technical Specification:

Fork Length	'L'	1150 mm
